ASTIGMATISM.

What it is, and how corrected.

Astigmatism or Irregular Vision is one of the most common of all the refractive errors. It is due to the irregular curvature of the eye known as the Cornea. Of course no instrument is sufficient to correct it, but in the hands of a thoroughly efficient and competent eye specialist the ophthalmometer reveals the exact condition of the eye in a way that nothing else can. If your eyes need attention have DR. J. T. JOHNSON put them under this wonderful instrument. Office hours 8:30 to 12:30; 2 to 6. 302 S. Elm St.

THE ENTERTAINMENT.

Mr. Ralph Bingham Last Night at the Academy of Music.

The entertainment last night at the Academy of Music by Mr. Ralph Bingham, was attended by a fair-sized audience. Though the heat was intense, the crowd forgot their troubles in the presence of the master-entertainer. Mr. Bingham certainly sustained his deserved reputation, and for an hour and a half the listeners roared with laughter. His descriptive powers are delightful and the humorous bent of his mind, seeing everything in a ridiculous light, is enough to make a stoic split his sides. The violin solos, with piano accompaniment by Miss Little Crocker, of this city, were remarkably fine. Ralph Bingham is a genius with the bow as well as a wonderful monologist, humorist and all round entertainer, and he showed his ability to "untwist the chains that tie the hidden soul of harmony."

Mr. Bingham will return to Greensboro in September.

BOARD OF ALDERMEN.

New Bicycle Ordinance Passed at Last Night's Meeting.

The board of aldermen held a short special meeting last night. Eight of the twelve members were present and Mayor Taylor presided over the meeting.

On motion of Alderman Hunter, the Benbow house was granted permission to use a street car to transfer passengers to and from the depot while its bus is being prepared.

On motion consideration of the new sanitary ordinance which at a former meeting was referred to the city attorney, to be reported at last night's meeting, was postponed until the next regular meeting.

Alderman Shields introduced an ordinance regulating the speed of bicycles, and upon motion the ordinance was adopted. A copy of the ordinance appears in another column of today's paper.

A New Citizen.

It is reported here that Mr. Ed. Hodgins, manager of J. Van Lindley's fruit farms at Southern Pines, will build a handsome residence on a tract of land south of this city, and will move his family to Greensboro this fall, to enjoy the advantages of Greensboro's excellent institutions of learning. He will place his children in some of our schools. We will extend Mr. Hodgins and family a most cordial welcome.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my daughter much suffering.—Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I. For sale by C. E. Holton, druggist.

AGUINALDO ASSASSINATED?

YELLOW JACK AT HAVANA

In Its Most Virulent Form Among the American Marines Stationed in the City.

By Cable to The Telegram.
London, June 16.—Report reaches here from Manila that Aguinaldo has met a fate similar to that which overtook Luna. The rumor says that he was assassinated by the friends of Luna for revenge. The report is denied by the Filipino Junta.

YELLOW JACK AT HAVANA.

STRICKEN WITH PARALYSIS.

Mr. Thos. Barber, of Winston, in a Critical Condition.

Special to The Telegram.
Winston, N. C., June 16.—Mr. Thos. Barber, a local tobacco buyer of this place, was stricken with paralysis in his right side this morning about 9 o'clock in Brown's Warehouse. His condition is serious.

THE DISPENSARY.

The Board of Managers Will Have Full Charge.

The argument in the dispensary injunction was concluded this morning, and Judge Bryan decided to continue the injunction as to the city, but dissolved it as to the board of dispensary managers, who will open the dispensary on July 1st, and as a board, manage the same. The city is enjoined from appropriating or using any of its funds for the dispensary, or aiding in any way in its management. Solicitor Brooks, for the dispensary, was speaking as we went to press last evening. He was followed by L. M. Scott for the plaintiff and John N. Wilson for the dispensary. Court then took a recess till this morning, when ex-Judge W. P. Bynum concluded the argument, speaking for the plaintiff, after which the court rendered its decision and a recess was taken till 3 o'clock, when a portion of the motion docket was taken up, and court adjourned sine die.

A merry party of young people gathered last evening at the home of Miss Marjorie Lyon, on North Elm street, and passed several delightful hours with games, music and dancing. At 12 o'clock the sumptuous dining hall was thrown open where a most tempting menu was in waiting. The occasion was highly enjoyable and all left delighted with Miss Lyon as a hostess.

Mr. Cobb requests us to announce that he will continue his business on this market. The only change will be the style of firm name, which will be Geo. O. Wilson & Co. He states that he expects to increase his business here.

THE OTHER SIDE.

A Greensboro Plan Has a Word About Compulsory Vaccination.

(The following letter was sent to the Danville Register in reply to a letter in that paper, and was refused, hence its appearance in the Telegram.—Editor Telegram.)

Editor Register:
Seeing a card in your paper from Dr. Ledbetter, the ex-Guilford County Superintendent of Health, in regard to the smallpox scare in this city several months ago, calls for more talk, and as a victim of the cruel virus, trust you will allow me space to challenge Dr. Ledbetter as to the correctness of the assertion that compulsory vaccination moved along smoothly in Greensboro.

Warrant that Dr. Ledbetter "pushed the work vigorously from the start," but deny that it was to "finish," and, too, we give him credit for being "on the constant alert for news of bad results"—but he was mistaken when he said he "could hear nothing of the kind in the city," for the howl was loud and long, and the echo has not yet died away.

The ordinance was made compulsory, and, as law-abiding citizens, many of our people were vaccinated immediately upon the passage of the ordinance. Those who had "been there before" it slated, and many of them defied the law, the more timid leaving town.

As the days passed on and the effects of the virus became evident on all sides—people walking the streets with their arms in slings, while others were laid up under the constant care of physicians, the sentiment, once in favor of vaccination, quickly relaxed, and it was an easy matter for even a stranger to be convinced that our people were sufficiently amused, and had enough.

As to Greensboro's death-rate—that's a matter of speculation. Possibly vaccination is not directly responsible for a single death, but indirectly we think it is. The fact that vaccination brought on or hastened a number of cases of spinal meningitis, which, in almost every instance, proved fatal, will hardly be denied by a reputable physician of this city.

As to the remarkable and astonishing assertion of Dr. Ledbetter that "there was not even a bad arm reported," we would like to ask what he calls "bad?" It seems to us that for a man to be compelled to quit work for a week or two (in many instances several weeks) on account of a sore arm would be sufficient proof of a "bad arm," and there are scores of such men in Greensboro.

"And the end is not yet." It has been more than five months since the ordinance went into effect, but sore arms are still numerous, and they are not all among "diseased negroes," either, as our "friend," Dr. Ledbetter, infers, as the following clipped from the Daily Record of May 30th, will testify:

"The science of medicine may be advancing, but in some respects it is difficult to make ordinary people believe it, especially when it comes to a discussion of vaccination for small pox."

"It has been some months since the scare was first started here, when compulsory vaccination was ordered, yet this office was reminded very forcibly yesterday that the effects are not yet gone, for a hand came up unable to work by reason of the scar still being sore. It was then ascertained that two more men in the shop were barely able to work for the same reason, while in speaking of it it is learned that there are still a number around town in the same boat."

"C. P. V."

"Greensboro, June 16, '99."

Street Carriage Ordinance.

At a meeting of the board of aldermen held on the 9th day of June 1899, the following ordinance was passed:

Be it ordained by the board of aldermen of the city of Greensboro, North Carolina, that no vehicles for the transfer of passengers shall be allowed to stand on Buchanan street near the passenger depot of the Southern Railway, except hotel busses, and that all such vehicles except hotel busses shall stand, when awaiting passengers, on the east side of South Elm street in a single line next to the curbstone with the heads of horses pointed either north or south. Any person violating this ordinance shall upon conviction be fined ten dollars.

THE SUFFRAGE AMENDMENT

It is Believed Will Pass the State By a Large Majority.

SENATOR BUTLER'S SUCCESSOR

To Be Chosen By the Next Legislature Which Will in All Probability Be Democratic.

Special to The Telegram.

Washington, June 16.—Among the many invitations, is one of more than ordinary interest, and for which, it is said, that before long an application will be filed at the United States patent office for a patent. It is the discovery of a process for obtaining malleable glass. In ancient times glass was, by some process, made malleable, but it has for ages been numbered along with the hardening of copper, and other processes of the ancients, with the lost arts. The inventor of the art of making glass malleable says that it is done by a very simple process, and is accomplished by the mixing of some sort of chemical, or chemicals with the glass. As the process could be readily discovered by any chemist by analyzing it, he will protect his interests at the proper time by obtaining letters patent from the patent office, and has already, it is understood taken steps in this direction. The inventor, who has been experimenting for a long time has a goblet made of the malleable glass which he can drop on any hard floor, without breaking. If it become flattened he can readily restore it to its proper shape by pressing it back with his fingers. The material is said to be harder than ordinary glass, and to possess a tensile power greater than iron. The inventor believes among other things that his process of making malleable glass will revolutionize ship-building, as by his process vessels can be constructed of glass instead of iron.

The patents for this wonderful invention will, it is said, be obtained by Washington patent attorneys, who are interested in the matter, and that as soon as it is perfected application will be filed. The inventor, and those who are familiar with it believe that it will prove to be one of the greatest inventions of the present century.

Mr. Thomas F. Lyons, of North Carolina, has been appointed a first lieutenant in the United States marine corps. He was formerly an enlisted man in the marine corps, and was promoted to the grade of sergeant. Sergeant Lyons was the only non-commissioned officer found qualified for a commission. As there were several vacancies in the grade of first lieutenant, he was almost immediately promoted to that grade. The appointment of a non-commissioned officer to the grade of first lieutenant is almost without precedent in the history of the marine corps.

Democrats from North Carolina say that there is no doubt but the democrats will carry the state election, and that the next legislature, which will choose a successor to Senator Butler will be democratic. The democracy in the state they say is in excellent trim, and will be found in the ascendancy by a large majority. While the democrats are not placing much faith in the support of republicans, they believe that the proposed constitutional amendment will pass by a very large majority. At the same time, it is known that many of the rank and file of the republicans in North Carolina will vote for the passage of the constitutional amendment.

Congressmen Nixon and Jones were in the city the other day. Both of the gentlemen are adherents of the policy of electing senators by popular ballot. Mr. Jones said that the contest for a change would not be abandoned until the victory is won. He will not himself seek a nomination for the United States senate to succeed Senator Martin.

Jeremiah M. Cottle has been commissioned by the post office department as postmaster at Pasley, North Carolina. He was appointed several weeks ago.

Mr. J. W. Cline and wife, of Asheville, are at the Metropolitan Hotel. Mr. Cline is here on a business trip, and the couple will remain for several days.

Mr. Joseph E. Robinson, of Greensboro, is in the city, stopping at the Metropolitan.

Mr. J. H. Houghton and wife, of Salisbury, are also at the Metropolitan.

Will Return to Greensboro.

Mr. Frank Hodgins, who has been residing in Roanoke, Va., for some time, has decided to return to the City of Flowers. He has purchased a farm on the Handlemans road, south of this city and will build a residence thereon and move his family there at an early date. Mr. Hodgins is a brother of John Hodgins, of the Cape Fear Manufacturing Co., this city. Mr. Hodgins and his family will be cordially welcomed back to this city.

SENTENCE COMMUTED.

Sam Lucas Escapes Hanging and Will Serve a Life Term.

The sentence of Sam Lucas, colored, who was convicted of murder in the first degree, has been commuted by the governor to imprisonment for life.

The petition for the commutation of his sentence was signed by a large number of prominent citizens. After his trial, upon an investigation of all the evidence, some of which did not go before the jury, the solicitor, ex-Judge W. P. Bynum, who prosecuted him, and Mr. Chas. M. Stedman, who assisted in the prosecution, came to the conclusion that there was some doubt as to whether Lucas had such premeditation as would make him guilty of murder in the first degree.

The gentlemen who employed Maj. Stedman to prosecute Lucas directed and instructed him to ask the governor to commute the sentence, which he did yesterday.

Delighted Purchasers.

The large enthusiastic throngs of delighted purchasers that crowded Messrs. Bandheim & Sons store the entire day and yesterday give conclusive evidence of the high esteem in which the public hold their announcements.

They expect just what they advertise, and always get it. Hence they are never disappointed.

The sale will be continued tomorrow with unabated interest and greater bargains.

Death of an Aged Lady.

Mrs. Ibbie Roberson, aged 61 years, died at 4 o'clock yesterday afternoon at the home of her daughter, Mrs. R. E. Andrews, corner West Market and Greene streets. The remains were interred this afternoon at Lee's chapel, 64 miles north of the city. Deceased leaves five daughters and two sons to mourn her departure.

A GRAVE PROBLEM.

The endless discussion of the Philippines question in the newspapers is becoming to be tiresome. But its monotony in no wise detracts from its importance. America is confronted with a grave problem which must be met with the steady and unwavering resolution which has characterized the republic's course in the past. This nation does not embark upon an enterprise to desert it at the encounter with perversity. On our bright escutcheon there is no blot of failure, and for the protection of our institutions we must keep it spotless.

The will of the great majority of the people of this nation is certainly antagonistic to an imperial policy. But since our nation has been committed to the task of conquering the Philippines, the government will be upheld in its most exhaustive drafts upon our resources to accomplish the desired ends.

In an able editorial yesterday touching upon our predicament—for we are certainly in a predicament—that able journal, the Philadelphia Record, has to say:

The official explanations of the department plans consist of mere quibblings with figures. The effort to fool the public by transparent subterfuges will be unavailing. The plain truth is that General Otis needs an army for campaigning which must be kept up to an effective strength of 35,000 men, and probably an equal number to hold the territory captured by the troops on the firing line. The additional force needed can be obtained in no other manner than by a call for the 35,000 one-year volunteers provided for by congress in the army appropriation act. The administration has no choice but to subdue the Philippines; the time for discussing alternatives has long since passed by. This being so, an adequate—may, an overwhelming—force should be employed to crush opposition and establish our authority. A halfhearted prosecution of the war would be full of peril to our decimated army and of unkindness toward the natives. All war is cruel, but the most cruel is that which is unnecessarily prolonged.

Gen. Otis should be sent all the men he needs to speedily crush the Philippines, and crush them so that they will stay crushed. McKinley's and Alger's theory—dictated by political reasons—that our present small army will finally vanquish the enemy, is a posteriori. Daily our army is becoming weaker with disease and death and the insurgents are becoming stronger by reason of recruits, increased experience and recuperation.

The voice of the people is calling for an end to the struggle of our men with the Philippines. And the voice of the thousands is more apt to be right than the close-born cabalism of the Washington war-managers. If the common people of the land were alone in their demands for a cessation of the Philippine war, there would be less reason for listening to their clamorings. But the brainy men of the country, men who are as intellectually capable as President McKinley, are emphatic in denunciation of the administration's loose handling of the war.

The muttering of disapproval, which is daily growing louder, had best be heeded by the government. Let our conquering arm reach out in its invincible might and conquer the Philippines, then allow the "governed" at the next election say whether further expansion be thing or not.

Most every newspaper of any personality has a fad, a hobby, an idiosyncrasy, or a peculiarity. Take for instance the Charlotte Observer; it feels the most ineffable delight in publishing the sudden calamity which has overtaken some populist officeholder or office-seeker. Then there's Webster's Weekly which has an innate fondness for abstract discussion upon any mooted subject. But of all the hobby-edited, our friend of the Danville Farrago takes the cake. He has a peculiar leaning to that fell and mysterious demon, appendicitis.

The following intelligence concerns

ing a new move of the vermiform appendix appears in this week's Farrago:

"Enduring" these days of the appendicitis fad, a couple of physicians at Ballyhoo, got to feeling around a man who wasn't feeling well, and when they got their hands on the place where the vermiform appendix is located the man said he was all right there—but when they got on the left side, just opposite the appendix, the man would fairly shriek with pain.

"In sorrow these ears looked upon their patient, and despair was depicted on their countenances.

"Finally the face of one brightened and he called his partner to him and they held a whispered consultation. And then one of them announced to the man with the sore side, 'My friend, you are suffering with a case of left hand appendicitis, and we'll saw you up.'

"And so this great discovery of Left Hand appendicitis removes all hope."

The Best Remedy for Flux.

"In July of last year I was taken with a severe attack of flux," says Mr. Joe Baker, of Allentown, Tenn. "I procured a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and used about half of it and it effected a complete cure. This is the best remedy for bowel trouble on the market." C. E. Holton, druggist.

The sun, after being arrested for a time, is scorching again.

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Chills and Malaria. It is simply iron and quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseating tonics. Price, 50c.

The book agent is often a man with a history.

"Go," exclaimed the haughty belle; "all is at an end between us. Leave my presence!" "All right," he remarked (for he had no romance in his soul); "but what about my presents?"

There is a time for all things. The time to take DeWitt's Little Early Risens is when you are suffering from constipation, biliousness, sick-headache, indigestion or other stomach or liver troubles. They never gripe. Howard Gardner.

The baggage smasher is getting in condition for his summer sport.

W. M. Gallagher, of Bryan, Pa., says: "For forty years I have tried various cough medicines. One Minute Cough Cure is best of all." It relieves instantly and cures all throat and lung troubles, coughs, colds, croup, whooping-cough, la grippe and pneumonia. Howard Gardner.

Despite all the talk about self-cochet, there are very few people in the world who honestly have a high opinion of themselves.—Feminine Observer.

Cholera Morbus Quickly Cured.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Bros., Fincastle, Ohio. "After taking two or three doses of Chamberlain's Remedy I was completely relieved and in a few hours was able to resume my work in the store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." C. E. Holton, druggist.

I would I were a mermaid stout, A-drift upon the tide; For then I couldn't kick about The weather if I tried.

To cure piles, strike at the root—that's the way. DeWitt's Witch Hazel Salve strikes at the root—it removes the cause, quickly and permanently. Don't squander time and money trying to remove the effects. Howard Gardner.

Hoax—"There was a robbery in our street last night, and there wasn't a policeman in sight." I think there should be one on every square."

Joak—"Who ever heard of a policeman being on the square?"

What you want is not temporary relief from piles but a cure to stay cured. DeWitt's Witch Hazel Salve cures piles, and they stay cured. Soothes and quickly heals old sores, scalds, cuts, burns, wounds and skin diseases. Howard Gardner.

Yellow Jaundice Cured

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky." Sold by C. E. Holton, druggist.

The woman who says she isn't going anywhere this summer is secretly thinking what a nice long trip she deserves.—Emma Carlton.

Discovered by a Woman

Another great discovery has been made, and that too, by a lady in this country. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose that she slept all night; and with two bottles was completely cured. Her name is Mrs. Luther Lutz. This writes W. C. Hammill & Co., of Shelby, N. C. Trial bottles free at C. E. Holton's drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed.

There are lots of dudes at the summer resorts, but men are reported scarce.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by C. E. Holton.

The most distant relatives are not always those who live farthest away.

What is Kodol Dyspepsia Cure? It is the newly discovered remedy, the most effective preparation ever devised for aiding the digestion and assimilation of food, and restoring the deranged digestive organs to a natural condition. It is a discovery surpassing anything yet known to the medical profession. Howard Gardner.

ONLY ONE CURE FOR SCROFULA.

S. S. S. is the Only Remedy Equal to this Obsolete Disease.

There are dozens of remedies recommended for Scrofula, some of them no doubt being able to afford temporary relief, but S. S. S. is absolutely the only remedy which completely cures it. Scrofula is one of the most obstinate, deep-seated blood diseases, and is beyond the reach of the many so-called purifiers and tonics because something more than a mere tonic is required. S. S. S. goes down to the seat of the disease, thus permanently eliminating every trace of the taint.

The serious consequences to which Scrofula surely leads should impress upon the afflicted with it the vital importance of wasting no time upon treatment that cannot possibly effect a cure. In many cases where the wrong treatment has been relied upon, complicated glandular swellings have resulted, for which the doctors insist that a dangerous surgical operation is necessary.

Mr. H. E. Thompson, of Milledgeville, Ga., writes: "A bad case of Scrofula broke out on the glands of my neck, which had to be lance and caused me much suffering. I was treated for a long while, but the physicians were unable to cure me, and my condition was as bad as when I began my treatment. Many blood remedies were used, but without effect. Some one recommended S. S. S., and I began to improve as soon as I had taken a few bottles. Continuing the remedy, I was soon cured permanently, and have never had a sign of the disease to return." Swift's Specific—

S. S. S. FOR THE BLOOD

—is the only remedy which can promptly reach and cure obstinate, deep-seated blood diseases. By relying upon it, and not experimenting with the various so-called tonics, etc., all sufferers from blood troubles can be promptly cured instead of enduring years of suffering which gradually but surely undermines the constitution. S. S. S. is guaranteed purely vegetable, and never fails to cure Scrofula, Eczema, Cancer, Rheumatism, Contagious Blood Poison, Boils, Tetters, Pimples, Sores, Ulcers, etc. Insist upon S. S. S., nothing can take its place. Books on blood and skin diseases will be mailed free to any address by the Swift Specific Company, Atlanta, Georgia.

"About ten years ago I began to have trouble
with my stomach," writes Mr. Wm. Connolly
of 33 Walnut St., Lorain, Ohio. "I got so bad
that I had to lay off quite often two and three
days a week, my stomach would bloat, and I
would belch up gas, and was in awful distress
at such times. I have been treated by the
best doctors in this city but got no help
whatever. I wrote to you for advice. You
told me that by my system of treatment
I could get well. I bought and used
"Pleasant Pellets" in connection. These medi-

Don't

Howl

Because you made a mistake. Get all the good out of the error that you can and don't do so any more. When you buy a cheap cotton crash suit and it goes out of shape at the first washing don't be surprised; this is a natural result.

Nothing Cheap

For hot weather. Our double swunk, non-shrinkable Linen Crash Suits are the best. They launder perfectly. No drawing up or lengthening out. Keep them clean and they always look new and dressy.
